1-9/16” AVT® Rotary Hammer, accepts SDS-MAX bits
Model HR4013C

POWERFUL 11 AMP MOTOR DELIVERS 8.4 FT.LBS. OF IMPACT ENERGY TO HANDLE THE MOST DEMANDING APPLICATIONS

- Anti-Vibration Technology (AVT®) is a synchronized, three-component system that more effectively reduces vibration resulting in a low 5m/s²
- Air actuated counterbalance directs air pressure from the crank and barrel room into the counterbalance cylinders to move counterweight pistons in the opposite direction of the drive piston actively reducing vibration
- Vibration absorbing housing features a spring loaded main handle and upper housing that move independently of the motor and drive mechanism effectively isolating most of the vibration away from the user
- Integrated damper spring at the base of the impact bolt is engineered to absorb impact vibrations from the drill bit

LESS VIBRATION
1-9/16” AVT® Rotary Hammer, accepts SDS-MAX bits

Model HR4013C

FEATURES & BENEFITS

- Powerful 11 AMP motor delivers 8.4 ft.lbs. of impact energy to handle the most demanding applications
- Anti-Vibration Technology (AVT®) is a synchronized, three-component system that more effectively reduces vibration resulting in a low 5m/s²
- Air actuated counterbalance directs air pressure from the crank and barrel room into the counterbalance cylinders to move counterweight pistons in the opposite direction of the drive piston actively reducing vibration
- Vibration absorbing housing features a spring loaded main handle and upper housing that move independently of the motor and drive mechanism effectively isolating most of the vibration away from the user
- Integrated damper spring at the base of the impact bolt is engineered to absorb impact vibrations from the drill bit
- Lock-on or trigger activation in “Chipping Only” mode with a push button start/stop control for more convenient operation
- Constant speed control automatically applies additional power to the motor to maintain speed under load to complete the most challenging jobs
- Soft start suppresses start-up reaction for more control and better accuracy
- L.E.D. service light notifies the user approximately 8 hours before the brushes need to be replaced
- L.E.D. power light indicates switch failure or cord damage
- Variable speed control dial enables user to match the speed to the application for greater versatility
- Torque limiting clutch engineered to prevent gear damage by automatically disengaging gears if the bit binds
- Sequential impact timing delivers timed hammering during rotation to minimize overlapping bit impacts for up to 50% faster drilling

SPECIFICATIONS

| AMPS     | 11     |
|------------------------------------------|
| Capacity (concrete)                      | 1-9/16” |
| Impact Energy (Joules)                   | 11.4 J  |
| Blows Per Minute (variable speed)        | 1,450 - 2,900 BPM |
| Bit Type                                 | Accepts SDS-MAX |
| Overall Length                           | 18-11/16” |
| Cord Length (ft)                          | 16.4’  |
| Net Weight                               | 15.1 lbs. |
| Shipping Weight                          | 21.99 lbs. |
| UPC Code                                 | 088381651325 |

STANDARD EQUIPMENT

- Side Handle (196792-8)
- Depth Rod (331955-1)
- Side Grip Assembly (123138-5)
- Grease (For Bit) (194683-7)
- Cloth for wiping oil (443122-7)
- Tool Case

Makita offers a wide variety of accessories. For a complete listing, please refer to the Makita General Catalog or visit our website at makitatools.com or call 1-800-4MAKITA.

All specifications subject to change without prior notice. All models and accessories subject to stock on hand.
