

14" Ultra-Premium Segmented Diamond Blade

Part No. T-02537

ADVANCED CUTTING AND VIBRATION REDUCTION TECHNOLOGIES ENSURE FASTER CUTS AND SMOOTHER OPERATION

- 3D Diamond Grid means each diamond is placed in an even 3 dimensional pattern for unparalleled performance in lifetime and speed
- M shaped segment design for improved acceleration into cuts, reduced friction and improved cooling
- Noise reduction technology utilizes laminate blades which reduce resonance and run significantly quieter
- The reinforced center uses a soft metal core to dampen vibration through the blade, lowering running noise and guaranteeing an unrivaled quality and ease of cut
- Cooling holes are engineered to keep the blade cool during operation to ensure a smooth cutting action for reduced operator fatigue

PERFORMANCE

Each diamond is placed in an even 3 dimensional pattern for unparalleled performance

COMFORT

Utilizes laminate blades which reduce resonance and run significantly quieter

EFFICIENCY

Unique segment design for improved acceleration into cuts, reduced friction and improved cooling

DESIGN

Engineered to keep the blade cool during operation to ensure smooth cutting for reduced fatigue

MORE CUTS. LESS VIBRATION.

14" Ultra-Premium Segmented Diamond Blade

Part No. T-02537

FEATURES & BENEFITS

- 3D Diamond Grid means each diamond is placed in an even 3 dimensional pattern for unparalleled performance in lifetime and speed
- M shaped segment design for improved acceleration into cuts, reduced friction and improved cooling
- Noise reduction technology utilizes laminate blades which reduce resonance and run significantly quieter
- The reinforced center uses a soft metal core to dampen vibration through the blade, lowering running noise and guaranteeing an unrivaled quality and ease of cut
- Cooling holes are engineered to keep the blade cool during operation to ensure a smooth cutting action for reduced operator fatigue
- Laser welded segments for constant reliable performance through out the life of the blade
- Advanced segment bonds allow for premium performance across a wider range of materials
- Fully usable 12mm segment height for improved cutting performance
- For use cutting cured concrete, green concrete, asphalt, block, brick and granite
- For use with 14" Gas Power Cutters

SPECIFICATIONS

Diameter	14"
Arbor	1" (20mm adapter included)
Max. RPM	5,500
Segments	23
Bond	Laser welded
Plate	Laminate steel w/reinforced core
Cutting materials	Concrete, asphalt, block, brick
UPC code	088381-443975

Part No. T-02537

Makita offers a wide variety of accessories. For a complete listing, please refer to the Makita General Catalog or visit our website at makitatools.com, or call 1-800-4MAKITA.
